Paddock Regulations / Paddock Rules

1. Follow the instructions of the staff without exception.
2. Entering the premises and participating in all KCE activities is at your own risk!
3. Every visitor must behave in such a way that no one else is injured, endangered or harassed.
4. You are required to place a liquid-proof floor covering measuring at least 1m x 1m under your kart in the drivers' area.
5. You must dispose of tyres, oil and other waste you produce yourself and take it home with you! No disposal on the circuit!
6. A disposal fee will be charged for any waste left behind. For this purpose, photographs and video recordings will be made of the drivers' area during the day of the event.
7. On the asphalted section up to the entrance to the circuit, a width of at least 3.5 metres must always be kept clear as an escape route for emergency vehicles. This also applies to karts. Failure to do so may result in exclusion from the circuit and the vehicle being towed away. The emergency services on site are authorised to give instructions.
8. You are permitted to drive your vehicle into the paddock for loading and unloading. After that, only equipment and trailers are permitted in the car park. We want to provide as much space as possible for all drivers. This means that all vehicles must be parked outside the premises if the premises are needed as a car park. Exceptions are motorhomes and camper vans, which may be parked in front of the building in the large car park, PROVIDED that this space is not needed for karts due to a large number of visitors, in which case they must also be parked outside the KCE gates. Exceptions are possible under conditions to be determined, ONLY after consultation and written approval from the management.
9. The pre-start area and pit lane may not be used as a staging area or kart parking area. It is only used for getting in and out and for a quick check of the kart (e.g. air pressure, temperature).
10. Between sessions, the kart must be returned to its parking space in the paddock.
11. When working with hazardous substances such as petrol or chain lubricants and when performing adjustments, the kart must be returned to its parking space.
12. Washing karts is not permitted anywhere on the premises.
13. Cooking with open flames is not permitted in the drivers' quarters due to the risk of explosion.
14. Pets must always be kept on a leash.
15. The paddock may not be used to warm up engines; these must be warmed up on the track.
16. Only after repair may engines be tested briefly (max. 5 minutes) in the paddock at normal engine speeds.

All drivers acknowledge these rules when creating their account and accepting the disclaimer and entering the KCE premises and are responsible for complying with them.

In the event of non-compliance or disregard of any of the above points, the management may impose a driving ban (in the case of events, exclusion from the event). In the event of a repeat offence, a total ban may be imposed.
